ABOUT US

MCE FACULTY, WHEN TRADITION MEETS INNOVATION AND EQUALITY

The MediCampus Europeo - MCE, based in Malta, is a cutting-edge **Faculty**, aimed at adding value to society and contributing to its **progress**.

MCE was established with the mission of providing its students with all the **knowledge** and **skills** required in the field of **medicine** - through theoretical lessons, practical activities, and internships in top European hospitals, **making a positive impact not only on people's health, but also globally**.

This goal will be made possible by the **highest quality of education and training** in their respective fields. Indeed, **MCE** operates with full respect for **equal opportunities**, focusing on the **right to health care, social justice, and team spirit**.

MCE - thanks to a meticulous evaluation of all candidates and their skills, abilities, aptitudes, and motivation - **annually creates a diversified student body**, rich with highly motivated students, whose goals align with the **objectives and values of MCE**.

This process aims to identify and select those **students who have the potential to become skilled professionals in their field**, whose vocation is to improve the health and well-being of people around the world through **research, innovation, and practice**.

LEARN ON THE JOB

DEGREE PROGRAM

At MCE, you will **experience a global medical education with an international student body**, and benefit from a Faculty that boasts **high-profile experts** dedicated to teaching, and **develop essential skills through clinical practice** starting from the first year.

MEDICINE

Degree Program in Medicine in English language taught by high-profile professors (360 ECTS, mandatory attendance). Graduates receive the **title of Doctor of General Medicine (MD)**.

Duration: 6 years

The **tuition fee** is **14,500 Euros - single payment - or 15,500 Euros - payment in 2 semester installments**.

Students are immediately placed in a **high-profile international environment** where, in addition to **basic theoretical subjects**, they have the **unique opportunity to engage in practical lessons from the first year** and, starting from the third year, **hospital internships** in several teaching hospitals in Europe.

For many, **studying Medicine is more of a calling than a choice**. At MediCampus Europeo - MCE, we aim to attract such students, those truly passionate about science, whose vocation is to improve the health and well-being of people around the world through research, innovation, and practice. **You will experience a global medical education with an international student body**, you will benefit from a **Faculty boasting experienced professors** with a strong dedication to teaching, and **develop essential skills through clinical practice** starting from the first year to excel in the art of healing.

The cost of living in Malta is not high, averaging around 800/900 Euros per month for food and accommodation.

START OF THE ACADEMIC YEAR

The Academic Year 2025/26 for the Faculty of Medicine will begin on September 29, 2025

LOCATION

All theoretical and practical classes will take place in MCE Campus in Malta

LANGUAGE

All classes are taught in English language by high-profile professors

ADMISSION PROCESS

Multiple-choice written test on chemistry and biology subject and written and oral test in English

MCE offers its students a **high-level practical and scientific education**. Classes are taught by **professors coming from some of the most renowned European universities**, who follow a teaching method characterized by a **close connection between theoretical and practical lessons**.

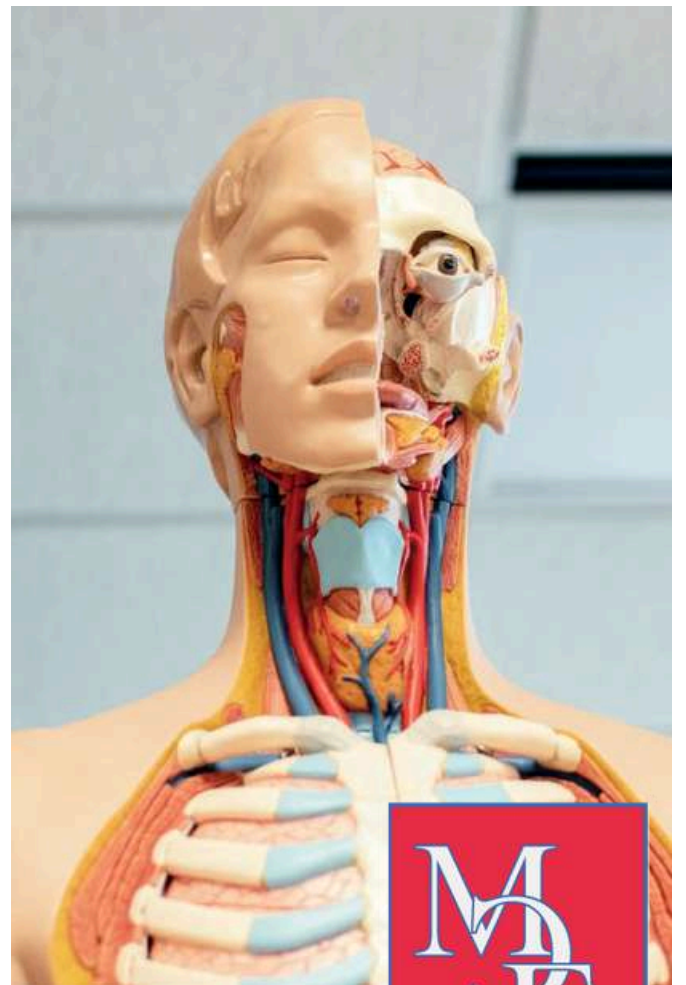

The **MediCampus Europeo - MCE** and all its **study programs are accredited** by the Malta Further and Higher Education Authority (**MFHEA**) and it is under the Maltese Education Act. MFHEA is a full member of the European Association for Quality Assurance in Higher Education (**ENQA**).

Medical studies at MCE lead to a degree in human medicine, which entitles the holder to obtain a **license to practice medicine throughout the EU and in many other countries** and is **fully equivalent to the medical examinations and to human medicine degrees from all other EU countries**.

The **Medicine degree program** at MediCampus Europeo is **delivered in franchising with the renowned Trakia University**, a state university **located in Bulgaria** that is one of the country's most famous universities.

It currently hosts approximately **9,000 students** and includes **9 faculties, offering 43 bachelor's degrees, 71 master's programs, and 90 doctoral programs**. Trakia University is accredited by the National Evaluation and Accreditation Agency (NEAA) under the Bulgarian Council of Ministers.

MCE adheres to the "**Bologna Process**" (European Higher Education System), using the **SEIS European standards** that define uniform education protocols for all European universities. Additionally, it employs the **European Credit Transfer System (ECTS)**.

MCE CAMPUS

MCE is the ideal place to live during your studies: it's a place to learn and grow alongside with your classmates, fostering relationships that extend beyond the classroom walls.

The **MCE Campus**, spans approximately **3,500 square meters** within a beautiful stone building featuring classic Hellenistic elements and Roman arches. It boasts an **architectural style typical of Malta and was constructed in the 1930s** by the British to serve as an army barracks. The Campus **is located in the peaceful town of Pembroke**, very close to the sea and a 5-minute walk from the renowned city of St. Julians, one of Malta's most attractive educational centers.

Malta International Airport, residential areas, and major hotels are all **reachable within a ten-minutes drive**.

The MCE Campus is filled with modern and spacious facilities. All our **classrooms** are **air-conditioned** and have **modern audio-visual equipment**. We also have a **big lecture hall**, **laboratories for practical activities**, **quiet study areas**, a **library** and **leisure areas like an olympic-sized swimming pool**, a **volleyball court** and a beautifully kept garden. Inside the MCE Campus there is also a **restaurant/bar**.
